Description

DIAREX Blade K5 - highest quality for highest demands

- ceramic blade of the latest generation
- suitable for sawing ultra-compact materials and ceramics
- even more precise cutting - material bottom edges with almost no chipping
- impressive performance over the entire life cycle - no resharpener necessary
- low pressure and low stress cutting due to very close toothing
- core reinforcement -> extremely precise: absolute cutting accuracy, especially when sawing miter edges
- core reinforcement -> extremely silent: reduces the vibration of the core and thus the development of noise

Product information

Material:	Ceramics
Diameter:	400 mm
Serie:	K-Serie
Borehole:	60 mm
Segments:	30

Segment height:	9 mm
Cutting width:	3,2 mm
Core:	Reinforced silent core
Side holes:	keine
