

DIAREX Trennscheibe UCS ø 300 mm | Bohrung 60 mm

Price

€199.00*

Prices excl. VAT plus shipping costs

Product number: F04.311516

Description

- cutting blade for all kinds of ceramic materials, fired ceramics and glass
- very narrow toothing for low pressure and low tension cutting
- reinforced steel core for highest core stability during sawing
- fine cut surfaces
- no chipping of edges
- long segments 40mm, segment height 10mm

Basic precondition: absolutely even surface under the work piece

colour code white | standard core (ø 450 silent core) | standard bore 60 mm |

rotation speed: 1400 - 2000 rpm | feed speed 0.5 - 1.5 m/min. depending on material thickness

Product information

Material:	Ceramics
Diameter:	300 mm
Borehole:	60 mm
Segments:	21
Cutting width:	3,3 mm
Core:	Reinforced rigid core
