

DIAREX Trennscheibe TGUFL ø 150 mm | Bohrung 60 mm

Price

€135.00*

Prices excl. VAT plus shipping costs

Product number: F01.400310

Description

for diamond blade-stack, for granite

- use on articulated arm machine as for example Thibaut T110
- for efficient preparation of contours
- sawing with diamond blade stack creates ribs which can easily be knocked off with a hammer. This way not the entire material has to be chipped
- ideal tool as preparation for DIAREX circumference-stack and DIAREX grinding drums
- for use on work piece height up to 16 cm we recommend to stack 7 diamond blades

colour code red | bore 60 mm
